

MANAGE AND MERCHANDISE A SALESFORCE COMMERCE STORE (B2B110)

OVERVIEW

Discover how to manage, merchandise, and customize an existing Salesforce business-to-business (B2B) Salesforce Commerce storefront using the Lightning Web Runtime (LWR) template. In this 2-day instructor-led class, learn how to configure essential store elements, including buyers, products, entitlement policies, marketing and pricing strategies, currencies and markets, and storefront customizations. Elevate your storefront by creating a seamless, connected commerce experience for business buyers that drives revenue through small and large purchases, and solidifies your brand as a reliable supplier for goods and services that are vital to buyer business operations.

WHO SHOULD TAKE THIS COURSE?

This course is designed for administrators, product managers, account managers, and merchandisers who are responsible for managing, maintaining, and customizing an existing B2B Salesforce Commerce storefront using LWR.

WHEN YOU COMPLETE THIS COURSE, YOU WILL BE ABLE TO:

- Demonstrate how to manage, merchandise, and customize an existing B2B Salesforce Commerce storefront using the Lightning Web Runtime template
- Apply knowledge of Salesforce Commerce data models and standard objects to establish effective relationships and pricing policies for products and buyers
- Reference your understanding of key commerce terms and concepts to navigate the Salesforce Commerce ecosystem.

PREREQUISITES AND PREWORK
